

## **Workshop on Patenting AI**

**Friday, October 8, 2021 – virtual**

### **Aims**

How to protect software innovations with patents in Europe

### **Registration Deadline**

Friday, October 1, 2021

### **Speaker & Bio**

#### **Bastian Best**

is a European and German patent attorney who builds patent portfolios for digital innovators. His special interest lies in the patentability issues involved in artificial intelligence, machine learning, blockchain, cryptography and the Internet of Things. The co-author of the chapter on Germany in "Software Patents Worldwide", Bastian is always up to date on drafting software patent claims that are valid and enforceable in Germany and beyond.

He is a regular speaker on patents for emerging technologies at IP conferences around the world.

### **Language**

English

### **Program outline**

- Is AI patentable? The EPO's patentability framework – with interactive examples
- How to get the inventors to draft the perfect invention disclosure for an AI invention? A step-by-step guide
- How to minimize friction with the outside patent attorney? – and how to judge whether he/she does a good job
- updates in case law / ruling in Europe
