

Workshop on Patenting AI

Tuesday, December 1st, 2020 – j |fhi U

Aims

How to protect software innovations with patents in Europe

Fees

CHF 50.00 members/CHF 100.00 non-members

Speaker & Bio

Bastian Best is a European and German patent attorney working in the Munich office of BARDEHLE PAGENBERG, one of the most successful IP firms in Europe. Having worked as a software developer for several years, he nowadays prosecutes, litigates and defends patents for software and computer-related inventions. His special interest lies in the patentability issues involved in artificial intelligence, machine learning, block-chain, cryptography and the Internet of Things. The co-author of the chapter on Germany in "Software Patents Worldwide", Bastian is always up to date on drafting software patent claims that are valid and enforceable in Germany and beyond. He is a regular speaker on patents for emerging technologies at IP conferences around the world.

Registration Deadline

Friday, November 20th, 2020

Language

English

Program outline

- Is AI patentable? The EPO's patentability framework – with interactive examples
- How to get the inventors to draft the perfect invention disclosure for an AI invention? A step-by-step guide
- How to minimize friction with the outside patent attorney? – and how to judge whether he/she does a good job
